Jupiterimages/Comstock/Getty Images Using a Duralast jump start pack to start your car when the battery is dead offers convenience and is much quicker than waiting for the auto club to arrive if you are stranded. The jump starter pack is basically a portable, rechargeable car battery in a box. The pack has a positive and a negative cable attached to it with large clamps on the ends for attaching to the battery of your car. It must be charged before use, and you can carry it in the trunk of your car and locate the battery. If it is not under the hood, you will need to consult your dealer for specific location information. Locate the positive battery terminal on the battery. There will be a large + embossed on the battery next to it. Attach the black, or negative, cable from the jump starter to the negative terminal. Locate the power switch on the front of the jump starter pack. Rotate the dial to the on position. Make sure the jump starter is sitting in a spot that it will not fall. Go to the driver's seat of the car. Turn the key in the ignition as you normally would and start the car. Leave it running and return to the engine compartment. Switch off the jump starter and remove the cables from the battery. Place the jump starter in the trunk or other safe spot in the car and close the hood. Allow the car to run for 20 to 30 minutes to recharge the battery before shutting it off. DEWALT 1400A Booster Pack with Digital Air Compressor features 1400 peak amps to jump start most cars, trucks, equipment, boats, motorcycles and more; Built-in 120 PSI Digital Compressor with Auto Stop Set It & Forget IT® for inflating tires, sports equipment and more at the exact air pressure So it's little wonder 700+ customers have given it a 4.7 out of 5 star rating. The most common cause for your Ryobi 40V Charger showing flashing red and green lights is that the battery has been over-discharged. Newsletter sign up. This jump starter compressor has features that can assist you with those problems so you can quickly get back on the road. Get peace of mind with our 12-month limited warranty 1400 Peak/700 Instant Amp Jump-starter starts most vehicles in seconds; 120 PSI Digital Air compressor (w/ auto shut off) and Sure Fit™ nozzle to inflate vehicle's alternator JavaScript is disabled. It will have a lower rate of self discharge and doesn't get damaged if left empty. It is a faulty vacuum and cheap design that uses a resistor for determining air flow by cooling the resistor.
