It should no longer say ""data files needed to download""These are the steps and instructions to install any android games, that come with obb files, or are large in size.Hope this helped. 3.9 Aplicaciones, Adventure tamaño: 223.5 MB Versión: 2.1 para Android Actualizado en: nov. 02, 2019 Prince of Persia Classic (Mod) 2.1 Features: On the Appyn application, press the fast download button to automatically download and upload the data. Download the web data to download the solution under the link AndroidObb At first, Prince of Persia Classic game (Hong Kong Persian), surely you will mistake the console game version of Prince Of Persia: The sand of time, released in 2003, though it was actually a remastered version based on the 1989 POP version of the famous game designer Jordan Mechner. Although using 3D simulation images, Pop Classic is a genre 2D platform, with sharp object animations and dynamic movements, and most of the fast-paced platform games and motion-oriented moves are driven to test fast, responsive reflexes. player's abilities, etc., so you will have some disadvantages in controlling objects when playing on iPhone, such as every move becomes easy when using only Using a controller to control every action, an additional problem, the finger will obscure some important parts on the screen when you control. Prince of Persia Classic Mod Apk: Prince of Persia Classic - remember game on consoles Prince of Persia?. This is it, but now in your Android. Classic Prince of Persia - the hero tries to save his Princess, overcoming many different obstacles on your way. This and dark dungeons, and battle with the guards, the journey on the Palace and its chambers, towers and prisons, avoiding traps and showing all the skills the sword. The game has online table of records! the game has 3 modes: conventional - learn the game, not limited to anything or anyone at the time - try to get out of the maze for a limited time - 60 minutes survival - here and limited time is 60 minutes and also hazards are a dime a dozen! Download Accelerated up to 200% with dFast Torrent Cloud"" Enjoy the fastest download service with dFast. تحميل أسرع خدمة تنزيل مع "" dFast. APK Size: OBB Size:178M Version:2.1 OBB Version:0 OBB file is APK Expansion Files. These files carry encrypted data including media and graphics that is not included in the APK file. Developpe add one or two expansion files to the APK, each file can be up to 2GB. Conceptually, each expansion file plays a different role. The main expansion file is the primary expansion file for additional resources required by your application. The patch expansion file is optional and intended for small updates to the main expansion file. The specific location for your expansion files is: /Android/obb// is the path to the shared storage space. is your application's Java-style package name. For each application, there are never more than two expansion files in this directory. One is the main expansion file and the other is the patch expansion file (if necessary). Previous versions are overwritten when you update your application with new expansion files. Prince of Persia Classic - a well-known and beloved Russian users game is now available on Android. Need to get to the beautiful Princess in the castle.Of course, the path was long and thorny. Many traps hiding on the road the Prince the player, which require lightning-fast reaction. The trap lurking playmaker everywhere: insidious guards harder to cheat, and the girl seems to be as unattainable as at the beginning of the journey.Despite this, from the Prince of Persia Classic impossible to put down. Innovation are three modes : normal, where the player slowly learn the rules, pass all obstacles on the way to his beloved; "race against time" is required to reach the goal in 60 minutes, and the last, the most difficult mode, "survival" - save the lady without dying even once per hour.
